U.S. Large Cap Equity Model Portfolio

Investment Strategy

The U.S. Large Cap Equity Model Portfolio seeks long-term capital growth by investing primarily in large capitalization equity securities of US companies that are demonstrating positive value and quality characteristics.

The Model Portfolio is designed to capitalize on large cap companies in the U.S. market. It also incorporates dynamic investment tax management.

Securities are selected based on an assessment of the investible universe using a rules-based, multi-factor investment approach that considers momentum, quality and other characteristics.

The Manager employs sectoral exposure limits to manage risk. The maximum exposure permitted to any single issuer is 10% of the Net Asset Value of the strategy.

Manager Overview

The Model Portfolio is one of the TCI Premia Portfolio Solutions managed by Tacita Capital Inc., a portfolio management firm and Family Office focused on advanced portfolio construction for affluent Canadians.

TCI Premia Portfolio Solutions are specifically designed to enhance diversification in traditionally designed portfolios and to provide advisors with solutions that offer the opportunity for enhanced investment tax management.

Tacita Capital Inc. employs an evidenced-based investment philosophy and process that incorporates the research findings of many of the world's leading financial academics and sophisticated investment practitioners.

Calculation Method

Investment returns reflect the reinvestment of dividend and capital gain distributions. Returns are Separately Managed Account returns with no fees.
